

## MS26 SERIES

MODEL MS26155-XX/EDY-500/C

Platen Drive Motor for spin coating operations during semiconductor manufacturing.  
Direct drive DC Brushed hollow shaft motor.  
Encoder velocity & position feedback.  
Vacuum seal mounting plate.  
IP54 O-ring sealed housing.  
Precision ground shaft.

- Sealed Motor
- 60 Volts
- 130 Watts
- Mount plate between encoder and motor
- 18" Teflon Cable
- 500 Line Encoder
